

Emergency Preparedness

Earthquakes. Floods. Landslides. Wildfires.

When a major disaster occurs, your community can change in an instant. Natural disasters can happen anywhere and at any time. Emergency response is likely to be delayed so preparation is key. A good start is to sign up to receive emergency alerts via text, email, or voice message at PublicAlerts.org, follow the Multnomah County Sheriff's Office on [Facebook](#) and [Twitter](#), sign up for [FlashAlerts](#), build your [disaster kit](#), and bookmark the County's [Office of Emergency Management](#).

The City recently hosted a disaster planning event led by Emergency Manager Ray Young and Multnomah County Emergency Management Operations Division Chief Alice Busch, EMT, CEM. You can check out the [Powerpoint presentation](#) from event meeting anytime. And to learn more about the the state of preparedness in Oregon, watch this OPB production of [Unprepared: An Oregon Field Guide Special](#).
