

<b>System</b>	<b>Current System Development Charge</b>
<b>Water</b>	<p style="text-align: right;">           3/4" Meter = \$ 1,345            1" Meter = 2,287            1 1/2" Meter = 4,439            2" Meter = 7,129            3" Meter = 13,450            4" Meter = 22,462            6" Meter = 44,789            8" Meter = 71,689            (No charge if meter is for fire only.)         </p>
<b>Sanitary Sewer</b>	\$ 4,495 per equivalent residential unit.
<b>Storm Water</b>	<p>\$ 0.3408 per square foot of impervious surface. All single family detached homes (SFD) are set at 2,700 SF of impervious area, which equates to \$920 for an SFD.            (The Halsey LID area is exempt.)</p>
<b>Transportation</b>	<p>\$723 per P.M. Peak Hour Trip End.            A single family detached home (SFD) generates 1.01 P.M. Peak Hour Trip Ends. The cost per SFD is therefore \$730.            (Facilities existing on July 11, 1995, are not assessed a fee for a change in use but are charged for any expansions.)</p>
<b>Parks</b>	\$2,500 per housing unit
