

Welcome! Our department's mission is to foster community visions, develop opportunities, and maintain safe environments for the betterment of Troutdale. We pursue this mission through the work of our four divisions:

- **Building**, which oversees construction activity and assures a safe built environment.
- **Planning**, which reviews land use applications and gives guidance for long-range growth.
- **Economic & Tourism Development**, which offers business support and tourism promotion.
- **Code Compliance**, which ensures the general welfare through outreach and enforcement.

The department also provides staff support for several of Troutdale's **citizen boards** and the city's collective efforts in developing its **urban renewal area**.

Online Services

With the City of Troutdale's **Citizen Self Service (CSS) portal**, you can apply for permits, schedule inspections, search department records, receive fee estimates, and more! Click [here](#) to register an account or contact our office for more details.
