

Street Sweeping

After several years of contracting street sweeping with Multnomah County, the City of Troutdale resumed full in-house responsibility for all street sweeping on city-owned and maintained streets. Every **city owned street** listed on the map is swept, County/State owned roads are swept according to their rotation.

There are five zones within the City and each is swept around 20 times per year. As sweeping takes more time in the fall, each of our zones will have more days on the schedule during the fall and winter months. The city's commercial area that lies north of the Historic Columbia River Highway has now been separated into its own zone. This new zone will only be scheduled on Thursdays which, in October, became the new residential garbage day for all Troutdale residents.

Please refer to the map on the right (click to enlarge) to find which street sweeping zone you live. You can also find **an interactive version of the map** on our GIS site. The City's street sweeping schedule for 2024 is below.

In addition to keeping Troutdale beautiful, cleaning the dirt and debris from roadways helps to keep our storm drains running clear and prevents flooding along streets and sidewalks. Sweeping also helps keep metal particles and other hazardous material from washing into our rivers and streams.

You can help by trimming trees **according to the 11-foot ordinance** and regularly clearing debris such as leaves, branches and rocks from in front of your home or business. During autumn, remember that Troutdale does not have a leaf pick-up program, so please do not rake or blow leaves into the street.

It is also helpful to move vehicles or other obstacles off of the streets to allow the sweeper to get next to the curb where the majority of the debris collects. At this time, that is not required unless the sweeping is prior to a pavement maintenance project. In that case, special notice will be given.
