Profile

My husband Rip and I love this city, and it fuels our creativity as sculptors. I ran for city council because I think Troutdale has a great potential to be even more of an oasis for people looking for a safe, business friendly place to live. We have unique viewpoints of some of the most spectacular natural beauty in the world, and have a special city that compliments where we live. I love bringing something from idea form into reality, and I think we all have a vision of how Troutdale can grow and keep its charm at the same time. I'm excited to have the opportunity to work toward that vision.

Professional Background:

- Bronze Sculptor, Fine Artist

Education:

- University of Oregon, Bachelor of Arts
