WORK TO BE DONE: The work to be done consists of three phases of Pavement Maintenance treatments: crack sealing, slurry sealing, and pavement overlay. The crack sealing phase consists of asphaltic crack prep work followed by application of approximately 21,600 pounds of approved crack sealing compound on identified sections of City of Troutdale streets. Crack sealing phase shall have a 30-calendar day performance time and must be completed not later than September 20th, 2020. The slurry seal phase consists of asphaltic pavement surface preparation and application of Type II Slurry Seal on approximately 60,138 square yards of City of Troutdale streets. The slurry sealing phase shall have a 21-calendar day performance time and must be completed not later than August 20th, 2020. The pavement overlay phase consists of approximately 1,017 square yards of 4" asphalt concrete pavement repair, asphaltic pavement surface preparation, cold plane asphalt removal, and application of approximately 195,986 square feet of 1.5- inch asphalt overlay, and related work on City of Troutdale streets. The pavement overlay phase shall have a 30-calendar day performance time and must be completed not later than September 20th, 2020.

PREVAILING WAGE: This is a contract for a public work subject to ORS 279C.800 to 279C.870.

PRE-BID INQUIRIES: Questions and requests for clarification related to this Work shall be directed to the project manager, Nick Massey, EIT, 342 SW 4th Street, Troutdale, OR 97060, (503) 674-7241, nick.massey@troutdaleoregon.gov.

PLAN SOURCE: Solicitation Documents, including Plans and Specifications, for the Work may be reviewed in the office of the designated Plan Source, City of Troutdale Public Works, 342 SW 4th Street, Troutdale, OR 97060, (503) 674-3300, and at the following Plan Centers:
